

Apoorva Pradhan

Email: apoorvap150404@gmail.com | Phone: 8144201010 | Location: Bhubaneswar, Odisha

Objective

Driven Computer Science Engineering student specializing in Artificial Intelligence, Machine Learning, and Full-Stack Web Development. Adept at designing scalable software solutions and leveraging cloud computing concepts to build user-centric applications. Seeking a challenging internship or entry-level software engineering role to apply academic knowledge and drive technical innovation.

Education

Higher Secondary Education (12th Grade)

Kendriya Vidyalaya Nabarangpur • Grade: 70%

Secondary Education (10th Grade)

Kendriya Vidyalaya Nabarangpur • Grade: 95%

Bachelor of Technology in Computer Science and Engineering KIIT Bhubaneswar, Odisha | Expected Graduation: 2027]

Relevant Coursework: Artificial Intelligence, Machine Learning, Software Engineering, Cloud Computing, Data Structures & Algorithms, Database Management Systems, Universal Human Values (UHV).

Technical Skills

Programming Languages: Python, JavaScript, HTML, CSS, C++

AI & Machine Learning: NumPy, Pandas, Scikit-Learn, Matplotlib, PyTorch

Web Development: React.js, Node.js, Express.js, RESTful APIs

Databases & Cloud: MySQL, MongoDB, Cloud Computing Fundamentals

Tools & Version Control: Git, GitHub, VS Code

Technical Projects

Sentiment Analysis Tool (Machine Learning) | Python, Pandas, Scikit-Learn, NLTK

- Developed a natural language processing (NLP) model to accurately classify text input as positive, negative, or neutral.
- Cleaned and preprocessed a complex dataset of 10,000+ text samples utilizing advanced tokenization and lemmatization techniques.
- Trained and evaluated a Logistic Regression classifier, achieving an accuracy of [Insert %] on the testing dataset.

Smart Task Manager (Full-Stack Web Development) | HTML, CSS, JavaScript, Node.js, MongoDB

- Built a comprehensive full-stack web application enabling users to create, organize, and track daily tasks and long-term projects.
-
